

IT INTERN SUMMER 2023

Overview: Echo Group Inc. is looking for a hardworking and coachable intern for summer 2023! As an intern at our headquarters, they will be expected to thrive in a fast moving and detail oriented environment. Experience in working with computer programs is preferred, but this would also be a good position for someone looking to explore career paths in computer science, cyber security, or information technology. Pay will vary with experience level.

Responsibilities:

- Basic problem solving
- Proactive risk management
- Assist the IT department
- Communicate between other departments in the company
- Must be able to read and follow directions
- Analyze issues with software and provide solutions

Qualifications:

- High school diploma
- Pursuing a degree at a two or four year institution
- Good organizational and time management skills
- Problem solving skills
- Work ethic and willingness to learn new things

Echo Electric Supply is an independent wholesale electrical distributor that supplies electrical parts, equipment and services to the construction market. Echo is based out of Council Bluffs. **Learn more about a rapidly expanding company!**
